

ALLYZZA PRINCESS A. BALMORIA

Imus, Cavite | 09166616213 | allyzzaprincess17@gmail.com

PROFESSIONAL SUMMARY

A dedicated Computer Engineering student seeking an On-the-Job Training (OJT) opportunity to enhance technical skills in programming, hardware systems, embedded technologies, and basic IT networking, while contributing to the organization's projects and operations.

EDUCATION

Philippine Christian University – Dasmariñas
Bachelor of Science in Computer Engineering

Dasmariñas, Cavite
Expected June 2026

STI Dasmariñas
Senior High School

Dasmariñas, Cavite
2020-2022

Honors: With Honors (Grade 11 and Grade 12)

ACADEMIC EXPERIENCE

Smart Feeder with Monitoring System Using Raspberry Pi and ESP32

Thesis Project

- Designed and developed an automated dog feeding system for rescued dogs with scheduled and accurate food dispensing
- Programmed the ESP32 using C/C++ to control feeding mechanisms and sensor data collection
- Used Raspberry Pi with Python for system coordination, data handling, and monitoring processes
- Integrated sensors to monitor food levels and feeding status in real time
- Developed a local monitoring interface to display feeding data and system status
- Applied basic IoT and embedded systems concepts for real-time monitoring and data logging

TECHNICAL SKILLS

Networking (Academic Knowledge): Manual IP address configuration on PCs and devices, Basic device-to-device communication testing using IP addressing, Verified connectivity between devices on the same network, Network simulations using Cisco Packet Tracer

Cloud Computing & Virtualization (Elective 3): Installed operating systems using Oracle VirtualBox, Configured Kali Linux, Windows Server, and Windows Client virtual machines, Set up virtual networks to allow communication between VMs, Basic troubleshooting of OS and network connection issues

Hardware & Electronics: Basic Circuit design and breadboarding

Programming: C/C++ (Basic), HTML (Basic), JavaScript (Basic)

Tools & Software: Microsoft Office Suite (Word, Excel, PowerPoint), Cisco Packet Tracer

CERTIFICATIONS & TRAININGS

- **Introduction to Cybersecurity** – Cisco Networking Academy (December 2025)
- **Introduction to Modern AI** – Cisco Networking Academy (December 2025)
