

JESS M. TOLEDO

COMPUTER ENGINEERING STUDENT | OJT APPLICANT

☎ +639-7622-17754 ✉ jessmendozatoledo@gmail.com 📍 General Trias, Cavite

Motivated learner with a strong interest in electronics, embedded systems, and networking. Eager to gain real-world experience and grow technical skills through hands-on training.

ABOUT ME

I am a Computer Engineering student with foundational knowledge in electronics, embedded systems, and networking. I have hands-on academic experience using Raspberry Pi and ESP32 through an IoT-based thesis project. I am highly motivated to learn, adaptable, and eager to apply my technical skills in an electronics and networking-focused environment during my On-the-Job Training.

EDUCATION

Bachelor of Science in Computer Engineering

Philippine Christian University - Dasmariñas Campus

2023 - Present

SKILLS

- Electronics & Embedded Systems
- Raspberry Pi & ESP32
- Basic Electronics
- Internet of Things (IoT)
- Networking
- Basic Networking Concepts
- Basic Network Troubleshooting
- Programming & Web
- C++, Java, HTML & CSS
- Python (Basic)
- JavaScript (Basic)

PERSONAL SKILLS

- Fast learner and adaptable
- Problem-solving mindset
- Team-oriented
- Responsible and hardworking
- Good general knowledge

THESIS PROJECT

Smart Feeder with Monitoring System Using Raspberry Pi and ESP32 – Tails of Freedom Animal Haven

- Designed an automated feeding system for rescued dogs
- Integrated sensors and microcontrollers for monitoring and control
- Applied electronics, IoT, and basic networking concepts
- Implemented system monitoring functionality

AREAS OF INTEREST

- Electronics & Embedded Systems
- Networking Technologies
- Internet of Things (IoT)

ACHIEVEMENTS

- Experienced international research presentation contest in Vietnam
- Senior High School - With Honors
